Stealth Bungee Sling

Cross section of Stealth Bungee Sling

The Stealth Bungee Single Point Slings by Tactical Link

With superior engineering and the sturdiest elastic available on the market today, the **Stealth Bungee Sling** is a serious piece of equipment that meets any operator's needs. **Warning: "Man Hands" Required!**

Where others have failed we got it right:

So many operators have asked Tactical Link to engineer a superior bungee sling - so we did. **The Stealth Bungee Slings** are sturdy, comfortable and provide more unparalleled strength and reach than any other slings on the market. This high-grade, double-band design provides a strong, comfortable, uniform stretch while ensuring freedom of movement, reliable weapon indexing, smooth weapon transitions, superior weapon retention and security.

Effective & Efficient Muzzle Striking!

Fire Position

Extended Position

Featuring a permanently secured low-profile swivel connector and optional quick-release buckle (QRB), the **Stealth Bungee Sling** universally attaches to our Z-360, X-180, Shot-Mod and Launch-Mod sling mounts.

Tactically Superior Features Include:

- DuPont® 1.25" mil-spec nylon webbing
 - **extremely low IR signature**
 - surprisingly soft **cotton-like feel** that **won't chafe the neck**
- **2 bands** of highest-grade elastic
 - better shoulder positioning, weight distribution and **more comfort**
 - supplies a powerful **12 inches of uniform stretch** for muzzle strikes
- Stronger design
 - sewn with our **standard 6 times** stitching pass technique
 - uniform webbing eliminates weak points, yielding **3800 lbs of strength**
 - **no rings** to break, or wear down sling and cause weapon loss
- Accommodates body armor; one size fits all
